Digital Glazing Solutions
for Ceramic Industry

Digital Glazing Solutions for Ceramic Industry

Unlocking New Dimensions of Digital Glazing

Tiles Decoration, Reimagined.

Engineered for the Ceramics Industry: DPI Cretaprint's Digital Industrial Production Line.

Deliver exceptional stability at high glaze application rates with the DG1400, which enables precise, on-demand adjustment of glaze thickness and droplet placement to achieve premium composite glaze effects. Experience unparalleled modularity and scalability with a system built for on-demand expansion and flexible configuration. Seamlessly integrate new functionalities and adapt effortlessly to evolving production needs.

Digital Production Line

Cretaprint

DG1400 Digital Glazing Machine

- **Smart Glaze Metering:** Powered by intelligent material management and precise glaze control, the system meters every drop — driving down production costs and eliminating material waste.
- **Pinpoint Glaze Control:** High-precision control of glaze thickness and drop placement, combined with accurate registration, brings full design control to every tile surface.
- **High-Laydown Texturing:** A high-laydown glazing process delivers bold, sculptural surfaces — unlocking premium effects from antique to natural stone.
- **Multi-Glaze Layering:** The system combines and stacks multiple digital glazes on the same tile — delivering layered depth, visual variation, and one-of-a-kind surface effects.

TECHNICAL DATA

Glazing width	1340 mm	External power supply	Variable (380/400/440/480V)	Glaze Type	Up to 2*
Max. power consumption	18 KW	Tile infeed direction	Right / Left	Min. tile thickness	6 mm
Max. tile thickness	50 mm	Electrical phases	3F+N+GND	Power connection	50/60 HZ
Pneumatic connection	8.5 bar	Printing speed	Up to 60 m/min	Dimension (L*W*H)	4200*2300*2300 mm

* Up to 2 glazes per machine concurrently

Laydown g/sqm	Line Speed m/min
448	15
280	24
224	30

DPI is a global technology enterprise, specializes in the R&D, manufacturing, sales, and service of high-speed industrial digital inkjet printers. DPI delivers innovative digital printing solutions to diverse industries such as ceramics, building materials, textiles, and packaging. For more information, please visit www.dpi-t.com
